## Sylvania Is Public

Title to a beautiful property in Gogebic County known as Sylvania was turned over to the federal govternment this week in ceremonies in the Washington offices of Orville L. Freeman, secretary of agriculture. The government forked over \$5,740,000 to the heirs of the Lawrence P. Fisher and C. M. Christiansen estates in payment for the 18,000 acres of forests and lakes in Watersmeet Township.

Sylvania will become a part of the Ottawa National Forest and will be developed as one of the Midwest's prime recreation areas and operated by the U.S. Forest Service under its multiple-use concept.

There was some concern over transfer of the Sylvania tract from private to public ownership when the proposal was first put forth. State and federal ownership of land in the Upper Peninsula already stands at for above one-third of all land above the Straits, and acquisition of Sylvania's acreage plus the proposed 67.-1000-acre Pictured Rocks National Lakeshore in Alger County (some of which already is in public ownership) significantly increases the ratio of public ownership.

Certain developments, however, tipped the scales in favor of public ownership of Sylvania. One of these was the fact that the heirs of the Fisher estate wanted to dispose of the property and offered it for sale. This was a case of private owners volunteering to divest themselves of property, as opposed to the principle of condemnation of private land for public purposes.

Second, the Gogebic County Board of Supervisors voted unanimously last June 15 to approve transfer of Sylvania from private to public ownership, although initially the township and county may lose tax revenues because of the transfer.

Finally, the U.S. Forest Service has drafted an ambitious master plan for development of Sylvania. which, when completed, should result in a unique concentration of attractions for tourists that ultimately will bolster the economy of the region by bringing in tourist money and providing employment for area residents.

Sylvania embraces 37 lakes with approximately Canoe trails would extend through a chain of lakes, with provision for nine portages. American statement of national purpose. Written in 1892 by Francis Bellamy, its amendment occurred in 1954 when the words "under God" were added. Children have joined with adults in this much-quoted pledge which deserves better than inane usage, banality or oversentimentalization.

The Pledge of Allegiance raises the important issue of values guaranteed by the Dec-Jaration of Independence and Constitution. We are assured that liberty and justice are not political gifts. These were not gratuities dispensed by the government to law-abiding citizens. We witness to the world that these are inalienable rights. They grow out of the very nature of man. They have deep spiritual rootage.

Without consideration and concan become so meaningless that it could be repeated by a person in any number of situations without thought. For instance. the generally gentle, civilized and cultured citizens of South Africa can tolerate a government which places its critics under house arrest So a man who criticizes the

# Motorbikes Gain Popularity In Escanaba Car Output Is from collisions with trucks, tique will consider an ordinate and trailers. About one nance next month. Car Output Is A 2 Year Low

THE MOTORBIKE boom in Escanaba is typical of what has been going on all over the United States among the younger set. Show, from left, are John Moyle, Pat Bonifas,

Barb Jensen, Sandy Maki, Mr. and Mrs. Dwayne Bero, Sol Corbisier and Larry Bero. (Daily Press Photo)

By DAVE ANDREWS The motorbike madness which has swept across the nation,

causing concern among legislators, city councilmen and police, has taken a firm hold on Escanaba. And, according to one local dealer, there are going to be

more motorbikes before there "I read somewhere that it will be 1971 before this thing hits its peak," he said. "Then, just like any other fad, the kids

will turn to something else." Estimates of the number of motorbikes in the Escanaba area range anywhere from 100 to 200. At least 97 have been licensed by the Secretary of State's office this year.

John Moyle, 17, a motorbike owner who works as a mechanic for one dealer, estimated the number between 150 and 175. Bill Bero of Bero Motors, a dealer in several models, said he has sold 100 himself.

No Problem But Noise

Lucal police, however, despite national cries that motorbikes are a serious safety hazard and rising death rates due to motorbike accidents, have not encountered any major difficulties aside from noise at

# Women's Activities

Dear Heloise:

We've found a way to get our small son to drink his daily quota of milk, without his raising a fuss!

Instead of pouring a large glass of milk (which looks discouraging to him), I give him a VERY small glass and a small pitcher of milk.

He pours each glassful for himself, and empties the pitcher in no time-without my having to keep telling him to finish it. Jim's Mom

Isn't PSYCHOLOGY wonder-Heloise

Dear Heloise: We had a new countertop installed in our kitchen.

We took a leftover piece to a cabinet maker who gave It some support, put an edging around it, and attached four legs which we painted red.

We purchased two small chairs to go with the table, and have a marvelous play table for our grandsons.

Dear Folks: Here's a little hint I would

cook. As soon as you empty the pots the vegetables were cooked in and the skillet the steak and

gravy were made in . . . While these cooking utensils are still WARM, add a few globs of detergent. Then get out that vegetable brush (which does the work for you - and you won't have to put your pretty hands in hot dishwaterall you touch is the handle), scrub and rince those pots un-

der the hot water faucet. Dry the pots and skillet with prefer napkins because it's easier to grab one off the top of the stack, instead of tearing off a paper towel from the roll.

If the skillet is cast iron, after drying turn it UPSIDE DOWN, and lay it over a warm, UNLIT burner on the stove. This will remove all remaining moisture and prevent rust. Only takes about 10 seconds.

Now, put the washed pots down to your meal, or let them drain while you eat.

your usual after-dinner clean- father down tde long aisle. up job is done.

Dear Heloise:

I have discovered a wonderful sweater dryer.

I lay an old window screen put a clean sheet on it, then shape the sweaters on it.

Since air can go up through gent. the screen, the sweaters dry much faster than when laid on a solid surface.

Mrs. L. C. Jamison Dear Heloise:

Using white thread, I have embroidered numerals showing the size of the cloth on the executive of the nation underside of a corner of each of my long, seldom-used table-

An embroidered "I" means the cloth fits when one leaf is in the table.

cloths.

"II" fits when two leaves are added, and "III" fits the table when all three leaves must be

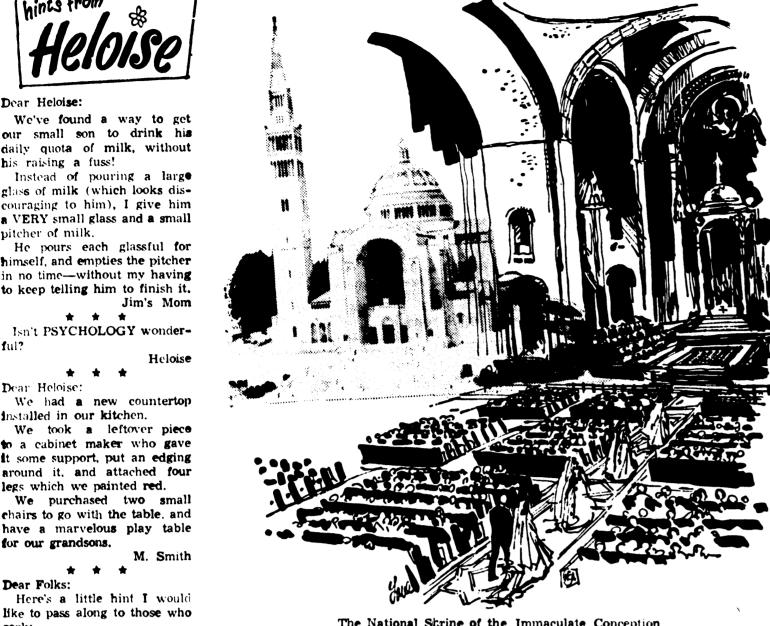

Surely prevents all that unfolding and re-folding to find the right length tablecloth. Mrs. James Mooore

Dear Heloise: If you use wooden kitchen matches, and have trouble with the striker strip wearing out before the matches are all used. get a package of sandpaper at the dime store, and either staple a strip of it over the side of the match box, or cut it to fit in the match holder (just the size of the side of the box.) Tis will usually outlast a box

of matches. I am assuming you have the matches in an old-fashioned tin, or other metal match box where the box of matches stands on end, and the striker strip shows through an opening in the side of the metal

**Orioles Wild** 

About Hannan,

Not Humphreys

By The Associated Press The Baltimore Orioles were

wild about Jim Hannan, but they certainly don't want to miss Bob Humphreys again. The Orioles jumped on Hannan for two runs on three walks, a wild pitch and a grounder in the first inning, then were stymied by Humphreys and his strikeout pitch for the next seven innings as they bowed to the Washington Senators 4-2 Friday

Hannan started the first by

walking Luis Aparicio. He

walked Russ Snyder before get-

ting the first out, then loaded the bases by walking Brooks Robinson. Aparicio raced home on Hannan's wild pitch, and Snyder came across as Boog

## Bear Dune Bill Put On Shelf

WASHINGTON (AP) - A Senate-passed bill to establish the sleeping Bear Dunes National Lakesbore in Western Michigan was shelved at least temporarily on a 12-8 vote by the House Interior Committee.

An effort is expected to be made to have the committee reconsider the bill, possibly next Tuesday.

Actually, the vote first was 11-9 against, but Rep. John Saylor. R-Pa., who originally voted for it, later reserved his vote-an action which permits him to move for reconsideration. One member voted present

and 12 others were absent when the vote was taken It is likely an effort will be made to persuade absentee members to attend when and if a reconsideration move is made.

The bill would create a na-Honal lakeshore of about 60,000 acres at an estimated cost of \$25.3 million.

Sen. Philip Hart, D-Mich., author of the Senate bill, said he was disappointed by the committee action. But he predicted Congress would pass the bill this year.

Sen. Robert Griffin, R-Mich. said the bill would be more acceptable if it contained amendments he has long advocated - including reimbursement to local school districts and putting reasonable limits on the power of condemnation.

Griffin urged the committee to reconsider its action and to include his suggested amendments.

## **Dow Chemical Buys Reactor**

MIDLAND (AP) - The purchase of a small nuclear reactor to be used as a course of radiation for chemical applications has been announced by the Dow Chemical Co.

The reactor will be installed in the Radiochemistry Research Laboratory in Midland, said L. C. Chamberlain, director of independent laboratories for Dow.

The reactor, known as a "TRIGA" model, is scheduled to be in operation by mid-1967 addition to the oratory in Midland. TRIGA stands for Testing, Research, Isotopes, General Atomic.

It will augment the laboratory's existing nuclear irradiation facilities which include two Van de Graaff accelerators, a small neutron generator and a new Cohalt-60 gamma irradiation facility addition.

Dr. William H. Beamer, director of the laboratory, said the TRIGA was chosen because of its simplicity of concept and operation, versatility and safe-

#### Card of Thanks

# Hough

I wish to express my sincere thanks to all my friends, neighbors and relatives for the many cerds, gifts and flowers sent to me while I was a patient at Schoolcraft Memorial Hospital.

Mrs. Lillian Hough

## Bedard

We wish to express our heartfelt thanks to the many friends, neighbors and relatives who by their acts of kindness in the recent death of our husband, father and grandfather, Leo Bedard, helped to lighten our burden of sorrow. Especially do we thank the Rev. C. J. Mark for his comforting words, the pallbearers, those who loaned cars, the many friends who sent floral bouquets, the choir, those who served as alter boys of the Sacred Heart Church of Schaffer. We thank you all.

Mrs. Leo Bedard, Mr. and Mrs. Herman Kay and Family, Mr. and Mrs. Thomas Cammack

derson, pastor.

## Attend the Church of Your Choice

But what I have found along the bayou I have seen, too, in the awesome might of a granite peak, in the mystic wonder of a shadowy canyon. I have heard it in the restless symphony of the surf at night.

These, the shrines of nature, are God's hint of a spiritual meaning in life. But, long ago, man responded to God's hint. The churches in which we worship and learn and serve—these are the workshops He inspired. Week by week, year by year, under the hand of the Master, lives are being fashioned to His blueprint . . . devoted to His purpose.

Yes, we can find God in nature! But the road of spiritual discovery only begins along the bayou. It goes on from there to our highest quest.
